Ishwarya Yenni

+91 7337007975 ishwaryayenni135@gmail.com Ishwarya Yenni

Summary

Motivated and detail-oriented final-year B. Tech Information Technology student with knowledge of Java, Python, Machine Learning, Web Development, and SQL. Passionate about software development, problem-solving, and continuous learning. Seeking an entry-level software engineering opportunity where I can apply my technical skills, contribute to organizational success, and grow as a technology professional.

Education

GMR Institute Of Technology **2023-2027**
BTech in Information Technology (IT), CGPA:7.58 *Rajam, AP*

Sri Satya Sai Junior College **2021-2023**
Intermediate, Percentage:63.7% *Palakonda, AP*

SML DAV Public School **2020-2021**
CBSE, Percentage:70.6% *Palakonda, AP*

Languages

- English (Proficient)
- Telugu (Native)

Projects

Placement Prediction Engine with Timeline Optimizer

Technologies: Python, Machine Learning, Pandas, NumPy, Scikit-learn, MySQL, HTML, CSS, JavaScript, Gemini API

- Developed an AI-based web application to predict students' placement probability.
- Built machine learning models to identify skill gaps and improve prediction accuracy.
- Used Monte Carlo Simulation to forecast placement outcomes.
- Integrated the Gemini API to generate personalized learning roadmaps.
- Designed an interactive dashboard to track skill progress and placement readiness.

Track Innovation Progress

Technologies: HTML, CSS, JavaScript, PHP, MySQL

- Developed a solution to monitor and evaluate innovation activities during a 24-hour hackathon.
- Designed a system to track idea progress and provide structured visibility into innovation initiatives.
- Collaborated with a team of three members to build and present the solution within the hackathon timeline.
- Enhanced problem-solving, teamwork, and time management skills by developing a real-world solution under time constraints.

Certifications

- NLP: Building Language Models for the Future - **L&T**
- **Research Paper Publication:** Placement Prediction Engine with Timeline Optimizer – IJEDR (International Journal of Engineering Development and Research)
- AADHRITA HACK24 – Hackathon Participation
- Getting Started with Competitive Programming-**NPTEL**

Technical Skills

Languages: Python, Java
Database: MySQL
Relevant courses: Machine learning, Web development
Technical tool: Git, Vs Code
Web Development: HTML, CSS, JavaScript, PHP
Soft skills: Communication, Leadership, Teamwork
Libraries: Pandas, NumPy, Matplotlib
